

Belgrade Community Center for All Seasons
Board of Parks and Recreation Meeting
January 9, 2008 6:00pm
Director's Report

BUILDINGS AND GROUNDS:

There are leaks in the roof in several places. Because of the ice backup, there has been damage to sections of the roof. The Town Manager has met with the insurance company to get an estimate of the damage. Scott is looking into how we can prevent future problems. Scott had the roof raked at a rate of \$895. This should be looked into and budgeted for the next winter season.

Starting in February, 2008, Scott has agreed to report to me each month, so that building maintenance details will be added to this report and the board will be informed of any building maintenance issues.
